**Subject:-** Acute paucity of fund in the field affecting services – reg.

Respected Sir,

Some time back we met and explained to you how the Telecom services are suffering due to non-allotment of adequate fund to meet the maintenance expenditures. There has been no improvement rather the situation has further deteriorated despite your assurance.

It is stated that very disquieting reports are pouring to HQR that the exchanges/BTS are shut down due to disconnection of electricity for non-payment of the bills. There is no money to purchase diesel to run the exchanges and BTS. Damaged cables and faults are not being rectified due to no fund. If such situation is allowed to continue the customers will definitely migrate from us. We are unable to understand and appreciate as why equipments and materials are being purchased when we do not have money for maintenance of the services.

It is pertinent to mention that the deductions made in respect of GPF contribution, bank loans, cooperative society etc are not being credited to accredited authorities for more than three months. Pension contributions have not been deposited for last three months. The situation is grave and alarming and very urgent action is needed so that our bread earner may not sink.

Under the circumstances we very strongly demand that steps be initiated to lift the PSU from present morass. We also suggest that a meeting be convened to discuss the present crisis with the unions.

With deep regards,

Yours sincerely,

(Chandeshwar Singh)  
General Secretary
