

It is reported that on 5th August the Cabinet has approved the proposal of BSNL to form Subsidiary Tower Company. It is with evil intention and motive. The issue was vehemently opposed in the meetings of National Council and staff side urged the management for consultation. The management kept mum. Therefore, we have no option except to lodge strong protest making it clear that such approach is dangerous and against the industrial culture. Circle Secys will meet at Delhi on 10th and 11th August and decide course of action.
